Division of Mental Health and Substance Abuse Services Staff	39

Introduction

This directory contains a listing of licensed addiction treatment programs and certified DUI Seminar Program providers.

All programs/providers are listed alphabetically within the region where they are located.

The Division of Mental Health and Substance Abuse Services (DMHSAS) is a Division of the North Dakota Department of Human Services. One of the primary responsibilities of the DMHSAS is licensing of alcohol and drug treatment programs.

Licenses are granted for the following programs: Adult Low Intensity Residential Care; Adolescent Low Intensity Residential Care; Adult High Intensity Residential Care; Adolescent Medium Intensity Residential Care; Adult Intensive Inpatient Treatment; Adolescent High Intensity Inpatient Treatment; Adult Partial Hospitalization/Day Treatment; Adolescent Partial Hospitalization/Day Treatment; Adult Intensive Outpatient Treatment; Adolescent Intensive Outpatient Treatment; Adult Outpatient Services; Adolescent Outpatient Services; Social Detoxification; and DUI Seminar Program.

Licenses are renewed every other year. Some providers are “deemed status” meaning they are certified through another body, but will be issued a new license every two years, based on our North Dakota Administrative Code, Article 75-09.1. The DMHSAS also certifies DUI seminar providers. All certified providers have been trained in the department-approved curriculum. DUI Seminar Providers must teach the DUI Seminar at least twice per certification cycle and attend DUI Seminar Instructor Recertification Training coordinated by the Department once every two years to remain certified.

**** Denotes Native American Treatment Program

Definitions

NDAC means North Dakota Administrative Code, Article 75-09.1, general standards for substance abuse treatment programs.

ASAM patient placement criteria means the second edition, revised, of the patient placement criteria of the American Society of Addiction Medicine.

Low Intensity Residential Care – Adult ASAM Level III.1: A substance abuse treatment program that provides an ongoing therapeutic environment for clients requiring some structured support in which treatment is directed toward applying recovery skills, preventing relapse, improving emotional functioning, promoting personal responsibility, and reintegrating the individual into the worlds of work, education and family life, adaptive skills that may not have been achieved or have been diminished during the client's active addiction.

Low Intensity Residential Care – Adolescent ASAM Level III.1 A substance abuse treatment program that provides an ongoing therapeutic environment for clients requiring some structured support in which treatment is directed toward applying recovery skills, preventing relapse, improving emotional functioning, promoting personal responsibility, and reintegrating the individual into the worlds of work, education and family life, adaptive skills that may not have been achieved or have been diminished during the client's active addiction.

High Intensity Residential Care – Adult ASAM Level III.5 Clinically managed high intensity residential services means a therapeutic community or residential treatment center that offers continuous observation, monitoring and treatment by allied professional staff designed to treat clients who are not sufficiently stable to benefit from outpatient treatment no matter how intensive and who have significant psychological and social problems.

Medium Intensity Residential Care – Adolescent ASAM Level III.5 Clinically managed medium intensity residential care means a substance abuse treatment program that offers continuous observation, monitoring and treatment by allied professional staff of individuals with significant psychological and social problems who are not sufficiently stable to benefit from outpatient treatment no matter how intensive.

Intensive Inpatient Treatment – Adult ASAM Level III.7 Medically monitored intensive inpatient treatment means a substance abuse treatment program that provides a planned regimen of twenty-four-hour professionally directed evaluation, observation, medical monitoring, and addiction treatment in an inpatient setting.

High Intensity Inpatient Treatment – Adolescent ASAM Level III.7 Medically monitored intensive inpatient treatment means a substance abuse treatment program that provides a planned regimen of twenty-four-hour professionally directed evaluation, observation, medical monitoring, and addiction treatment in an inpatient setting.

Partial Hospitalization/Day Treatment – Adult ASAM Level II.5 A substance abuse treatment program that uses multidisciplinary staff and is provided for clients who require a more intensive treatment experience than intensive outpatient treatment but who do not require residential treatment with the exception of ASAM Level III.1.

Partial Hospitalization/Day Treatment – Adolescent ASAM Level II.5 A substance abuse treatment program that uses multidisciplinary staff and is provided for clients who require a more intensive treatment experience than intensive outpatient treatment but who do not require residential treatment with the exception of ASAM Level III.1.

Intensive Outpatient Treatment – Adult ASAM Level II.1 Treatment provided to clients requiring a primary, organized treatment program and who are able to establish abstinence and recovery within the context of the client's usual environment and daily activities. Normally offered in the evening hours to facilitate a client's ability to maintain the usual daily activity, but may be offered during the day.

Intensive Outpatient Treatment – Adolescent ASAM Level II.1 Treatment provided to clients requiring a primary, organized treatment program and who are able to establish abstinence and recovery within the context of the client's usual environment and daily activities. Normally offered in the evening hours to facilitate a client's ability to maintain the usual daily activity, but may be offered during the day.

Outpatient Services – Adult ASAM Level I An organized nonresidential service or an office practice that provides professionally directed aftercare, individual, and other addiction services to clients according to a predetermined regular schedule of fewer than nine contact hours a week.

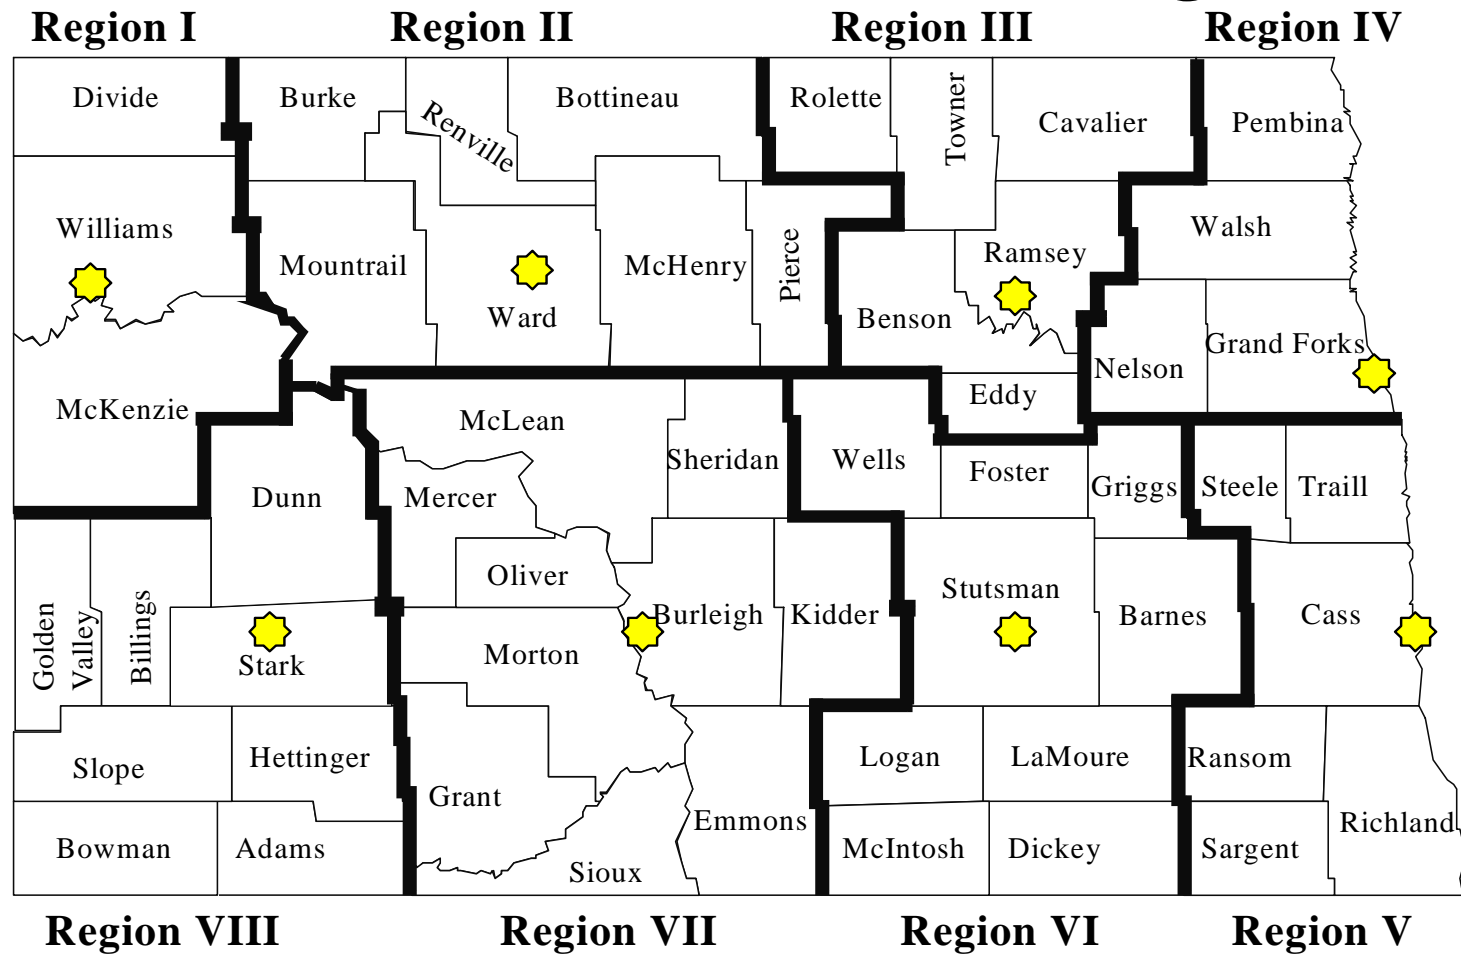

Outpatient Services – Adolescent ASAM Level I An organized nonresidential service or an office practice that provides professionally directed aftercare, individual, and other addiction services to clients according to a predetermined regular schedule of fewer than nine contact hours a week.

Detoxification: The condition of recovery from the effects of alcohol or another drug, the treatment required to manage withdrawal symptoms from alcohol or another drug and the promotion of recovery from its effects.

Social Detoxification ASAM Level III.2-D Detoxification in a residential, nonmedical setting, delivered by appropriately trained staff that provide safe, 24-hour well-monitored environment for clients to achieve initial recovery from the effects of alcohol or other drugs.

DUI Seminar Program ASAM Level 0.5 Alcohol or drug-risk reduction education program for clients convicted of driving under the influence or actual physical control.
